VOGT[®]
WorkTec

The pneumatic spade for universal use

Applications

- Puncturing roots
- Excavation of shrubs
- Digging in heavy soils
- Excavation for foundations
- Break open stony and frozen soil
- Making narrow and deep headholes
- Compaction for dry stone walls and edgings
- Precise compaction work, even in narrow areas
- Emission-free grave and compaction work with one device

VOGT TurboSpade VTS 60-80
Garden and landscaping Set

VOGT

TurboSpade

Advantages

- ✓ Quick tool change
- ✓ Wide range of applications
- ✓ Effective work due to high impact force
- ✓ Power-saving, ergonomic working method
- ✓ Durable quality product - made in Germany
- ✓ Different device lengths with large tool selection
- ✓ Gentle work due to low weight and vibration damping
- ✓ Low air consumption allows use of 230 Volt and petrol compressors

Compact narrow areas

Cut roots

Dig up bushes

Create substructure

Lifting heavy soils

Make pile holes

Maintenance free - Versatile - Efficient

Applications

- Expose supply lines
- Create exploratory shafts
- Removal of waterlogging
- Exposing and aerating roots
- Loosening of mineral concrete and soil
- Blow out pavement and masonry joints
- Underpassing and uncovering of foundations
- Cleaning mossed surfaces and exposed brickwork
- Sandblasting of surfaces, steel and reinforcement with additional equipment

VOGT Air Lance
Basic-Set

Advantages

VOGT Air Lance

- ✓ Quick change of accessories for a wide range of applications
- ✓ Swirling air stream protects hair roots from damage
- ✓ Fast, effortless uncovering without pimples
- ✓ Easy, fatigue-free and ergonomic operation
- ✓ Prevents expensive line damages
- ✓ Dismountable air flow guide tube
- ✓ Various device lengths, extension tubes and nozzle attachments
- ✓ Durable construction due to the use of aluminium and stainless steel

Soil loosening

Cleaning masonry

Aerate the soil

Uncover roots

Blow out joints

Uncover cables

Effective soil loosening with minimal use

Applications

- Removal of waterlogging
- Soil aeration in the root area
- Operation in different depths
- Loosening of compacted access roads / areas after construction measures
- Subsoil loosening before the lawn base layers are built up

VOGT Soil Aerator
Basic-Set

VOGT

Soil Aerator

Advantages

- ✓ Short set-up times
- ✓ Dosable aeration operations
- ✓ TurboSpade can also be used for other applications
- ✓ Design enables a high aeration capacity
- ✓ Surface water can seep away again in the future
- ✓ Large dimensioned buffer hoses for long distances
- ✓ Different lengths of devices and tubes

Aeration of compacted soils

Loosening paddocks

Remove waterlogging

Over 120 tools enable a wide range of versatility for the most diverse applications
